NO. 17

THE CHRISTMAS FELLOWS.

I.

GETTIN' close to Christmas, an' you hear
'em, every day :
"How long is it away---
How long is it away?"
They're thinkin' of the runnin' of the reindeer,
with the sleigh :
"How long is it away
Till Christmas?"

II.

BLESS 'em--little fellows--with the rosy
cheeks of May !
"How long is it away--
How long is it away?"
There is no sweeter language that the shiny
angels say :
"How long is it away
Till Christmas?"

F. L. Stanton

III.

AN' the old folks get to thin'-in---with fur-
rowed brows an' gray :
"How long it seems away---
How long it seems away!"
An' they are as little children, as for those they
love they pray :
"God keep the little fellows
To their Christmas!"

WOMEN'S TAILORED SUITS

Tailored—expresses their appearance—neat, dressy, stylish. We see to the details of fit and finish in the selection of the factories that shall make our suits. There are bunglers and botchers in tailoring, as well as artists. There is variety in style here sufficient to please your taste, as to what you think your suit should be. The long 3-4 or 7-8 Coat Suit is by long odds the favorite however. Certain styles that cannot be re-ordered are reduced in price.

Rain Coats

Rain and sleet lose half their terrors when a Rain Coat is worn—they are a necessary luxury—luxury because they are beautiful enough to be worn at any time. We have very recently found a factory that puts out all its energy on the making of Rain Coats at less price than we have ever been able to do before. In all the right colors. Price starts at \$7.50, \$10 up to \$20.

Handkerchiefs

If you do not know what else—there are Handkerchiefs—useful, certainly, and for the Ladies often very ornamental. You will find with us Handkerchiefs, of every character and kind and we are confident at less price than most places. A Handkerchief sold as Linen by us IS LINEN. Prices start at

5c up to \$1.

Men's Initial—in both Silk and Linen—Handkerchiefs in fancy boxes—for Children, Ladies and Gentlemen.

SILK HANDKERCHIEFS and MUFFLERS in every grade

A Gift For Wife or Daughter

WOMEN'S DRESS SKIRTS

Panama is the favorite material, but details of style we'll have to leave, as there are too many to begin on for descriptions of any one or two. Suffice it to say that they are right—rightly tailored, they hang or set just right. Certain half dozen styles cannot be reordered, if you'll find your size among them you will save a couple of dollars.
One lot were \$4.50, \$5 and \$6, now \$3
" " \$6 and \$7.50 " \$15

LITTLESTOWN SILK MILL
A PICTURESQUE AND FASCINATING PLANT.

Story of the Plant and What it is Doing For Borough of Littlestown.

One of the most fascinating manufacturing plants in Adams county is the Littlestown Silk Mill. The building is new and is kept scrupulously neat and clean and with the silk threads everywhere in sight makes a picture that is most pleasing.

What the plant means to Littlestown can be appreciated by the fact that at times there are one hundred and fifty people at work in the plant. It is moreover a very desirable plant with every indication of being permanent. While it was an outgrowth of the York Silk Mills, Mr. Henry Musser, a wealthy citizen of York, is now practically the company known as the Littlestown Silk Mills. Everything is of the best and paid for. There is no such thing as a dead end plant.

The Littlestown people deserve great credit for their enterprise as the building was erected by people of that town and is owned by them. The mills pay a rental for same amounting to interest on sum invested in building, which would cost \$25,000 to duplicate. The building, a large brick one, stands out prominently as Littlestown is approached from any direction.

The story of the silk thread from the time received until part of the manufactured goods, was explained by Mr. Robert W. Souter in showing us over the plant. To one side of the main building there are two vaults of brick with iron doors like a safe. Inside is kept the raw silk. This is most valuable and is protected with utmost care from any danger by fire or otherwise. This raw silk is worth \$4 a pound. The vaults did not seem crowded but in the two vaults there was raw silk worth between \$30,000 and \$40,000.

This silk comes from Japan, China and Italy. It comes duty free and that fact and duty on manufactured goods makes it possible for the American silk mills to compete with the mills of those countries with their cheap labor.

The raw silk is the thread as unwound from the cocoon made by the silk worm. The worm spins around its body a cocoon which takes about a week to make. The process is closely watched and as soon as the worm has finished the work the waterer must take the cocoon and with a heating process kill the worm so to prevent its eating its way out and cutting the thread to pieces, for the cocoon is valuable only when it can be unwound in one complete thread and this thread is wound into skeins and comes to this country as raw silk. The color of the Japan and China raw silk is white and that from Italy yellow.

These bright skeins of raw silk are brittle and would easily break and each evening the supply of raw silk for the next day is taken and put in a bath in one of seven tins in the basement of the main building. In the morning the skeins are taken from the bath and put in a machine called the extractor, which rapidly revolving withdraws all the water. The skeins are then ready for the machines on the first main floor, the winders. The skeins stretched around wooden bobbins are wound in a single thread on to bobbins, large spools. There are 20 winders in plant.

The bobbins are taken to the second floor of the building and are put on the spinners and there are forty spinning machines. The bobbins are arranged on the spinners in rows and above them are other spools called spindles and the thread goes through the machinery from bobbin to spindle in such a way that it is a double thread, one twisted to the right and one to the left. On every spinner there are 240 spindles, and both the winders and spinners must be closely watched for broken threads, when when they occur are tied by the operator.

From the spindles the silk thread goes to the reeler and come off it in skeins, which at first glance from a distance might be mistaken for the raw silk skeins but it is the twisted silk thread which comes from the costly machinery, making the winder, spinner and reeler operators.

These finished silk skeins must be sent to the buyer in a process when the Littlestown plant does not do.

REACH THE SPOT.

To cure an aching back.
The pains of rheumatism,
The tired-out feelings.
You must reach the spot—get at the cause.

In most cases 'tis the kidneys.
Doan's Kidney Pills are for the kidneys.

Charles Bierbach, stone contractor, living at 2625 Chestnut St., Erie, Pa., says: "For two years I had kidney trouble, and there was such a severe pain through my joints and limbs that I could not stoop or straighten up without great pain, had difficulty in getting about and was unable to rest at night, arising in the morning tired and worn out. The kidney secretions were irregular and deposited a heavy sediment. Doctors treated me for rheumatism, but failed to help me. I lost all confidence in medicine, but Doan's Kidney Pills relieved me so quickly and so thoroughly that I gladly made a statement to that effect for publication. This was in 1898, and during the six years which have elapsed I have never known Doan's Kidney Pills to fail."

A FREE TRIAL of this great kidney medicine which cured Mr. Bierbach will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. For sale by all druggists; price, 50 cents per box.

This process needs special water facilities to be done successfully and can not be built and operated at any point, the location must be selected with great care.

The Littlestown Silk Mills are only manufacturing black silk and all their silk skeins return from the dyers, colored black. The skeins are then ready for the looms and there are fifty of these in the plant and when every one of them are going to their limit 300 yards of fine black silk will be turned out in a day's time. The woven silk goods a yard wide comes from these looms in pieces about 10 yards long. They go to a small machine called the picker where an operator goes over both sides removing the ends where the thread has been torn, giving a finished appearance to the silk.

There is another process when at present is done outside of the mill. These 75 yard pieces of silk are sent to a place where they are put through a piece of machinery that gives the silk the high gloss finish to be seen in a silk in stores.

The Engine house adjoining the main building of the Littlestown Silk Mills is an interesting place, and it was as clean and neat as any other part of the building. There were two big boilers, and a 20 horse power Corliss engine, and there was a small engine hitched direct to a dynamo and an apparatus to regulate the steam used for heating purposes, the plant being thoroughly heated and lighted with incandescent electric lights by its own machinery. The mill is frequently worked at nights and over all the machinery is scattered dozens of lights.

The silk making business is a most intimate one and we followed Mr. Souter's explanations somewhat darkly as it was all new. It isn't a simple proposition of the owner buying all the raw silk, manufacturing it and selling the product. The big retail dealer is interested in a way to make the business most complicated. They buy the raw silk. They may be running a special line and using the raw silk product of one silk grower and they want their goods up to their standard all the time. The raw silk as sent in must be kept separate and distinct and so marked by an elaborate system of tracing until it comes out the finished product. The Littlestown Silk Mills has already established a name and reputation for the faithfulness with which this end of the work is done. Indeed the Littlestown Silk Mills has established an enviable reputation in all departments of the silk business in which it is engaged.

The Goose Bone Man.

At the latest celebration of a friend, Elmer Hart, the Reading goose bone waterer, pronounced, needed from his recent declaration that he would give out no more prescriptions, and after closely studying a goose bone remedy and.

While waiting for a winter, according to the weather, the goose bone water of the best kind, so with common sense and good luck, and good luck. About the holidays and during the early part of January a sharp frost, the temperature will make place. It will last only a few days, however, and a balance of the month will remain mild.

At the end of February we will have severe cold, with plenty of snow and a blizzard on the middle of the month. Then we will have real winter weather to the balance of the month, and it will extend into March. The home is perfectly covered in the middle, when days are clear and the sun is again gradually clearing and remains so.

After the middle of March we will have pleasant weather until the closing of winter.

At the end of March of Wm. Patterson, a farmer and townships, have been named by the Board of Commissioners. It was formerly part of the town of Spangler, and is now a part of the town of Spangler.

You cannot be expected to have faith in Shiloh's Consumption Cure, the Lung Tonic, as a cure for Cough, Croup, and all diseases of the respiratory system, if you have not tried it. We have faith in it, and we guarantee it. It will cure you if it costs you nothing. It costs you 25c. That's all. Try it today.

Shiloh has cured many thousands of the most obstinate, and we do not hesitate to say that it will cure any Cough, Croup, or Lung trouble. If we did not believe this we would not guarantee it. Proof

is found in the many testimonials of those who have tried Shiloh and been cured. Mrs. Archie Taylor, Asap, Pa., writes:—"I have a child of Shiloh's Consumption Cure and found it very beneficial. I treated my child and they had a terrible cough. I gave them everything I could think of, but they got no better, and one evening my husband took a bottle of Shiloh. We gave it to the child, and when they went to bed, and they fell all right. I cured them completely. I shall always keep it in the house."

CAPT. GRAHAM'S GRATITUDE

Suffered from Sores on Face and Back—Doctors Took His Money But Did No Good—Skin Now Looks Clear as a Baby's.

ANOTHER CURE BY CUTICURA REMEDIES

Captain W. S. Graham, 1321 Eoff St., Wheeling, W. Va., writing June 14, '04, says: "I am so grateful I want to thank God that a friend recommended Cuticura Soap and Ointment to me. I suffered for a long time with sores on my face and back. Some doctors said I had blood poison, and others that I had barbers' itch. None of them did me any good, but they all took my money. My friends tell me my skin now looks as clear as a baby's, and I tell them all that Cuticura Soap and Ointment did it."

STILL ANOTHER CURE

Neck Covered With Sores, Hair Fell Out, Wild With Itching

Mr. H. J. Spalding of 104 W. 104th St., New York City, says: "For two years my neck was covered with sores, the disease spreading to my hair, which fell out, leaving an unsightly bald spot, and the soreness, inflammation, and merciless itching made me wild. After a few applications of Cuticura the torment subsided, the sores disappeared, and my hair grew thick and healthy as ever."

AND STILL ANOTHER

"For over thirty years I suffered from painful ulcers and an eruption from my knees to my feet, and could find neither doctors nor medicines to help me, until I took Cuticura which cured me in six months." (signed) M. C. Moss, Gainesville, Tex.

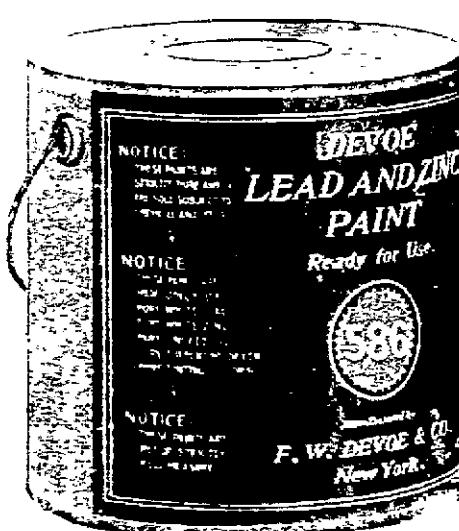

Cuticura Soap, Ointment, and Pills are sold throughout the world. Puter Drug & Chem. Corp., Boston, Sole Importers. Send for "How to Cure Every Humour."

SUPERSTITIOUS SAYINGS

EVERY CORNER OF THE EARTH HARBORS THEM.

A Number of Familiar Ones Gathered From Among the Pennsylvania Dutch.

It is remarkable how generally superstitious sayings have spread over the country. No section may claim to be above harboring such beliefs or rather, practices; for many it not be claimed that all believe in the practice and observe certain forms or take cognizance of defined circumstances. Nevertheless, there are a matter of fact, few persons who care to pass a pin lying on the ground, if the point chances to be toward them. Almost invariably that pin will be picked up.

How many persons will confess to a weakness for seeing the new moon over their right shoulder unobserved by any bushy tree top? A greater number will deny belief in the efficacy who will at the same time confess that they would rather see the moon "right." This remarkable superstition prevails in all parts of the world.

Below are some of the common sayings in a community made up of descendants of Pennsylvania Dutch who settled in the Keystone State shortly after the colony was organized.

If in washing the dishes or in cleaning the table before a meal the cook drops a dishrag some one is coming hungry.

The crowing of a rooster before the front door early in the morning foretells the visit of a stranger.

If a red bird flits about the yard and chirps merrily a young girl, gayly dressed and light hearted, may be expected soon.

The crowing of a rooster in the night is a sign of hasty news. Thus, many a rooster, by a single crow, has cast a gloom over an entire family.

The howling of a dog at night foretells some dire calamity, such as a tragic death.

The crowing of a chicken hen portends bad luck. It always results in the death of the hen without delay for no good woman would allow a crowing hen to live longer than it takes to cut off its head.

In ironing a garment if the smooth-iron is dropped the owner of the garment will never live to wear it out.

Friday is an unlucky day. If a piece of work is begun on that day it will not prosper and possibly the one who begins it may not live to finish it. It probably is true that not 10 women out of every hundred can be found who would as willingly start a garment on Friday as on some other day.

If the individuals of a hunting party, in crossing a fence, go over the same section luck will be good, but if several sections be crossed the hunt will be a failure.

Looking at a new moon for the first time through obstructions, as through a tree top, foretells misfortune during that moon. To see it over the right shoulder and in a clear space good luck.

Ashes must not be taken from a fire place in a sickroom. The death of the patient would follow. Nor must the bed of a sick person be turned over. It is actually true that this last provision is believed and actually followed in numberless homes where wealth and culture abound.

Kraut must be made in the dark of the moon if it is to be sour.

It is the height of folly to cut a child's finger nails before it is a year old, for then it will pilfer and steal. The nails must be broken and bitten off.

Potatoes and all roots must be planted in the dark of the moon, when it is decreasing or going down in size; likewise, crops that grow above ground must be planted in the light or increase of the moon.

Hogs must be butchered when the moon is increasing, otherwise the meat

will shrivel up and fry away in cooking.

A family must never move except in the light, or increase of the moon. This will secure prosperity and increase of possessions. They will grow as the moon grows. This is another superstition that is almost general practiced in all classes of society.

If a child is allowed to look in a mirror before it is a year old teething will be difficult. If a coffin containing a corpse be placed so that it is reflected in a mirror there will be another death inside that family inside a year.

To remove a wart from the body steal a piece of bacon, rub the wart with it and then bury it under the eaves. Say nothing about this and the wart will soon disappear. The writer removed a number of warts from his own hands when a boy by doing this.

A stray black cat in the backyard foretells good luck.

If you sing in bed you will cry next day. If you sing before breakfast you will cry before night.

If you want a cat to stay at your home, rub its paw on the stove.

To keep a new dog measure his tail with a cornstalk and bury the latter under the front step.

If you sleep with your feet toward the door you will soon be carried out a corpse.

If an infant is puny and does not grow satisfactorily it must be measured for the "undergrowth." A "pow woa" doctor, usually a woman, will strip the child, measure it with a string the same color as its hair, say some "words," bury the string in a secret place and repeat the performance three times. The child will get well. There are dozens of children in a certain Dutch community that were measured in this way and are now pointed to as examples and proof of the efficacy of the method.

In setting out fruit trees a woman must hold the tree while a man gets it and stamps the dirt about the roots. This makes it a sure bearer. This also is practiced in numberless communities. These sayings were gathered by a writer for the "Scientific American" and many of them sound very familiar.

Buffalo Bill Kills All His Horses.
All the horses belonging to the Wild West Show of Col. William F. Cody, Buffalo Bill, were killed at Marseilles, France, last week. Although the government veterinarians had certified that glanders had been eradicated from the stud, Colonel Cody and his partner, James A. Bailey, decided on the radical measure in order to allay the fears of the farmers regarding the spread of the disease. The saddles, bridles and other equipment, as well as the clothing of the stablemen, were burned and the railroad cars belonging to the show disinfected. Colonel Cody is now in the United States engaged in purchasing a fresh stud.

Death of Charles E. Smith.
Charles E. Smith, formerly of Fairfield, died at the home of his aunt Mrs. Simon J. Hare, of Mcherrytown, on Dec. 11th, from consumption and kidney trouble, 17 years of age. He had been employed for several years at the Long furniture Company, Hanover. The funeral took place on Wednesday morning, Dec. 13, at St. Mary's church, Rev. Fr. P. P. Hemler officiating, with interment at Conowago Chapel.

Doctor Pierce's Pleasant Pellets the favorite family laxative. One "Pellet" a laxative, two "Pellets" a cathartic dose.

All Run Down

THIS is a common expression we hear on every side. Unless there is some organic trouble, the condition can doubtless be remedied. Your doctor is the best adviser. Do not dose yourself with all kinds of advertised remedies—get his opinion. More than likely you need a concentrated fat food to enrich your blood and tone up the system.

Scott's Emulsion of Cod Liver Oil

Just such a food in its best form. It will build up the weakened and wasted body when all other foods fail to nourish. If you are run down or emaciated, give it a trial: it cannot hurt you. It is essentially the best possible nourishment for delicate children and pale, anaemic girls. We will send you a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

BITS FROM THE WRITERS.

Audacity stands in the place of ancestors to those who are not well born. —Lucas Clowe.

A long, slow friendship is the best; a long, slow enmity the deadliest. —Saton Merriman.

Among the quieter satisfactions of life must be ranked in a high place the peace of a man who has made up his mind. —Anthony Hope.

Many men have ability, few have genius, but fewer still have character. Character is the rarest thing in England. —John Oliver Hobbes.

Who steals hearts steals souls, wherefore it behooves a woman to look that the lock be strong and the key hung high. —F. Marion Crawford.

Any fool can get a notion. It needs training to drive a thing through—training and conviction, not rushing after the first fancy. —Rudyard Kipling.

Important Officials.

Whether the officers mentioned by Mr. Whinton in his "History of Antrim" (New Hampshire) regarded their position seriously and lived up to their official dignity is not told. It is certain that the small boys would have hailed the opportunity of exercising such functions with glee and would have discharged their duties with vigor and alacrity.

In 1793 the town of Antrim officially appointed three responsible persons to all the position of dog pelters. It was their duty to sit near the meeting house door and to pelt, drive away or cage any dogs that dared to enter the sacred edifice. In the official records of the town are found votes of subsequent years, continuing the vocation of the dog pelters.

One might question which would make the most disturbance in the church, the chance dog or the pelters in the exercise of their official duties.

Scolding Reform.

It is accepted as a truism among educators that no child can be made permanently good by simply scolding. The over-scolded child is made worse by the process, and the over-scolded politician is likely to deteriorate, and for the same reason. Even a good dog will try to earn a bad name if he has it thrust too often upon him. Probably it would be an exaggerated statement to say that the essential spirit of reform in this country is the spirit of the scolding parent, but it resembles it too often. —George W. Alger in Atlantic.

Fire Fortunately Averted.

Room 45 at Hotel O'Bold, Hanover, was the scene of a slight fire about midnight one night last week which might have proven disastrous, but for the early discovery by landlord W. P. Devine and two guests, who were in the act of retiring. The gentlemen noticed a pronounced odor of burning cloth, and the smell was traced to room 45, where the discovery of the fire was made.

The occupants of the room were awakened, and together with landlord Devine, they extinguished the blaze with slight damage, which was confined to the straw matting on the floor.

The fire was caused by the bursting of an electric light bulb, which had been wrapped up with a handkerchief to shade the light after which the occupants of the room had retired and gone to sleep. The bulb, it is supposed, became so hot as to ignite the handkerchief, which caused the same to burst and the whole to fall to the floor.

Racing Over the Snow.

C. Taylor Leland, largest owner of the Gettysburg Transit Co. takes great pride in two pacers he owns, Mac F and Mac H, and offered the other day to race them over the snow against any trotting or pacing team for fun, a bottle or the suppers. It is expected that the owner of a pair of pacers at Devon, Pa., will take up Mr. Leland's challenge and that there will be a novel race upon the first day of sleighing, which will attract much attention. Mr. Leland's horses are three and five years old. The race would be on Park Speedway, Philadelphia.

ALLEN T. WERTZ ARRESTED CHARGED WITH FORGERY.

Improved Electric Light Facilities— Little Hope For Better Railroad Accommodations.

Littlestown, Dec. 19.—Allen T. Wertz, formerly of Union township, and a son of Wm. H. Wertz, a reputable citizen of this place, was arrested last Thursday at Hanover, charged with forgery on oath of Paul Wm. Brenner, treasurer of the Hanover Saving Fund Society. On Sept. 30, 1904, young Wertz received cash from the above named institution for a \$540 note, bearing his father's endorsement which the latter subsequently pronounced a forgery. Shortly after receiving the money young Wertz suddenly departed going to the South. After spending about a year in Florida and other southern states, he returned to Hanover and secured work as fireman on the Western Maryland railroad. It was while at work on his engine that he was arrested. After being given a hearing and in default of bail he was committed to the York jail for trial. He has a wife and several children living with his father-in-law in Union township.

Bishop Crouse, of York, Horace A. Crouse, of Gettysburg, and A. Winton Crouse, of Waynesboro, were called home last week by the serious illness of their mother, Mrs. Sarah E. Crouse. The cause of her illness is heart affection. At this writing the lady is somewhat improved but not entirely out of danger.

The parties in control of our electric light affairs are making considerable improvements to their plant. Since the current was supplied from Hanover a lot was purchased on East King street, and a frame building erected thereon. Later on a brick building of commodious size will be built for the use of transformers. During the past week new are lamps of stronger power were placed throughout the town giving brighter and more steady light than the former. A corps of men under the direction of Hal J. Gintling, is also at work stretching new wires for supplying light to stores, hotels, private buildings, etc.

The petition signed by our business men and forwarded to the Northern Central railway authorities, requesting that the train arriving at Hanover about 1 p. m. be run through to this place, has evidently been consigned to the waste basket. After politely acknowledging its receipt, nothing further has been heard from the railway officials. If our people desire better facilities for getting in and out of our town they must look in a different direction—they must look in the direction of Hanover for the extension of the trolley. The latter would give us the desired accommodations and our citizens should heartily assist in removing the few obstacles that are still in the way.

Rev. C. P. Bastian, of St. John's church, was tendered a donation party by a large number of his members last Tuesday evening. The reverend gentleman is deservedly popular with his members and the public.

Hon. S. S. Mehring, living at edge of town, who had been seriously ill several months ago, has almost recovered his usual robust health.

This year's champion pig feeder of our town is Jacob Rindle, of Lumber street, he having slaughtered one weighing 477 lbs., while John E. Wehler, of East King street, is a close second with one tipping 472 lbs.

Peculiar Accident.

A heavy post supporting a wheat bin in barn on farm of Jacob S. Taubman, in Reading township, gave away recently and seriously injured a son of Daniel H. Klinefelter, residing on farm. They were in act of removing wheat from bin when post fell striking the boy on the head, knocking him to the floor. A large gash was cut in the head which required seven stitches to close.

MERRY CHRISTMAS.

The COMPILER wishes one and all of its friends a Merry Merry Christmas. The great holiday of the year is here reverberating with peace on earth good will toward men. Christmas 1905 sees the end of one of the greatest of our wars, in which huge armies contended with the most improved death-dealing inventions of war. It was the American ideal of good will that brought an end to the Japanese-Russian war. Russia is now in the throes of reaping as the Great Bear has sown. Absolutism maintained at the price of human liberty is doomed and Russia will have to pay the price of its sin, but the hope of a greater humanity, larger freedom and better brotherhood is ahead. The message of good will toward men will eventually give peace on earth where the Czar rules. President Roosevelt by his great achievement in making peace stands to day for something infinitely greater and better than any big stick, as he had been previously caricatured. It is peace on earth good will toward men that makes greatness. Good will is good cheer, good humanity and justice. The message of the season is one to be carried through the year. Peace on earth, good will toward men. We close as we began with best wishes of the COMPILER for a Merry Merry Christmas.

PENSIONS FOR TEACHERS.

The Teachers Institute of Adams County, resolved in favor of pensioning teachers who had given twenty-five years consecutive service. To make this a popular movement it should be coupled with a proposition that all pensions be paid by the state. If the burden of payment fell upon the districts, it is feared there would be much opposition to it from tax payers.

That the teacher is one of the poorest paid public servants will be conceded by many. \$15 a month gives for 20 working days in month, about \$1.75 a day. It will require strict economy for the teacher with a family to support to make both ends meet at the end of the month and he must find other employment during vacation to keep things going. A man twenty-five years will likely unfit any mortal for any other business or calling outside of teaching. There is much to be said on the subject of the duty of the public toward the teacher and in favor of a pension.

There is one side of the question, it is doubted whether the teachers have fully considered and that is the effect of a pension law. Might not the pensioning of a teacher have the tendency to satisfy the public that its duty had been done toward the teacher. Would not the provision for pension for years of service have an influence to keep down the present salary of the teacher. Would not the teachers be helping themselves more by creating and educating a public sentiment toward larger salaries than now paid, perhaps a graded system of salary, one increasing with proficiency and years of service.

The COMPILER sends a Merry Christmas in a special cover. We would ring the merry Christmas bells of good will for all of you and throughout the year ahead. On the last page we present a Christmas story and other matter pertinent to the season.

On the second page will be found the account of a visit to a most interesting plant—The Littlestown Silk Mills. What was seen was not only a surprise but greatly delighted us. Littlestown certainly has a plant and industry to be proud of and which means much in the industrial development of the town.

The COMPILER this week is twelve pages, made necessary by the heavy holiday advertising. Those who have yet to finish their Christmas buying would do well to remember the advertising patrons of THE COMPILER—give them the cheer of your purchases.

Memorial to Gettysburg Lady.

The "Daily Sentinel" of Grafton, W. Va., in a recent issue states that a beautiful marble baptismal font has just been placed within the altar of St. Paul's Ev. Lutheran church of that city for the use of the church and as a memorial to the memory of Mrs. Fannie King Richardson, the deceased wife of Rev. Arthur F. Richardson, a former popular and highly esteemed pastor of St. Paul's congregation. After the death of Mrs. Richardson, which occurred in Pittsburg during the past summer, the friends of the deceased lady in the congregation, headed by Mrs. O. P. Stroh, secured the necessary subscription for the purchase of what seemed to be a most appropriate memorial, and which took the form of a baptismal font. The order for the urn was given to the Willhide Marble Works and it has been completed, and placed in position within the altar railing of the church, and will be duly dedicated to its holy office at a date in the future that will be convenient for the attendance of the Rev. Mr. Richardson, who has been invited to be here on that occasion. This beautiful memorial is of pure white marble, and sits on an elegantly turned and carved pedestal, the bowl bearing the name of the deceased lady whose memory it thus so beautifully commemorates. During her five years residence in Grafton Mrs. Richardson made many warm friends and lasting attachments both inside and out of the congregation of which she was a part, and these find a fitting expression in the beautiful urn that has been placed in the church here to her memory.

To Prospect For Oil.

The COMPILER first told in print the story of the indications of oil in Adams county months ago, hoping to attract the attention of those interested in oil and able to prospect for same. The indications of oil in Hamiltonban township have been in evidence for years. The appearance at places of an oily substance and the odor has occasioned comment for a generation as was discovered. An oil prospector has said that many an oil well has been sunk on less indications than there are in a certain region in this county and that he would not want better indications. There is every sign now that the question will be settled at an early date whether there is oil in Adams county. There have been many delays for no one was willing to put up the money and undertake the work of prospecting unless given an opportunity to reap the fruits of a find. Leases have been secured covering a tract of land containing about 2200 acres in Hamiltonban township. A charter has been applied for a company to prospect, a number of moneyed men of Waterbury, Conn., being interested in same. Leases have been signed over to this company. The company expects to be ready in a short time, and not later than spring the prospecting for oil will begin.

Our Townsman Highly Honored.

An event long to be remembered took place on the evening of Dec. 12, in the parlor of the De Sota Hotel, Savannah, Georgia. A party of prominent Pennsylvanians were gathered together. The Andersonville and Chattanooga monuments had been dedicated. Gen. Harry White, acting as spokesman, presented to Hon. Wm. T. Ziegler, a handsome silver mounted umbrella, and a pair of finely engraved gold cuff buttons in appreciation not only of his work in the selection and erection of the monuments dedicated, of which all Pennsylvania can feel proud, but also in memory of his many acts of kindness to prisoners of war while he was confined in the Andersonville prison.

Instantly Killed.

Mrs. Annie R. Bowers, wife of Isaac S. Bowers, of near Emmitsburg, was accidentally shot and instantly killed by her daughter, Frances C. Bowers, on Dec. 8. The husband and a son had been shooting at mark and a loaded shell was left in gun. The girl took up the gun to put it away. In walking across the room the butt of the gun struck against the stove, causing the shell to be exploded. The entire load struck the mother in head, near the left ear. Coroner's inquest after hearing the testimony found a verdict of accidental discharge of gun. Mrs. Bowers' maiden name was Fleagle, a native of Carroll county and was aged 39 years, 1 month and 5 days. Funeral was on Sunday, Dec. 10, Rev. A. M. Gluck, pastor of Reformed church, officiating.

Brakeman Injured.

On Thursday morning Lewis R. Phillips a brakeman on the York local freight on the W. M. R. R. was helping in the shifting of cars here. A loaded coal car was being moved from a siding east of Stratton Street, and Phillips was holding the pole between car and engine on another track when suddenly the pole broke and an end of the pole struck him on the chin and a splinter cut an ugly deep gash across his throat. He was first carried to the W. M. R. R. depot, then to Dr. Stewart's office, where Drs. Stewart and Bailey dressed the wound. Half a dozen stitches were necessary to close the gash in throat. The young man lives in Hanover and is unmarried and had handed in his resignation to take effect the day he was hurt. He had so far recovered as to be about on Monday.

New Heating Apparatus.

Cold water let into a hot boiler made trouble for the steam plant at the Hotel Gettysburg on Thursday of last week. The boiler did the usual thing under such circumstances, it didn't stay together. With the boiler out of business the hotel was in rather a bad condition. This was rather ingeniously overcome by getting a traction engine and placing it on Carlisle Street in gutter and attaching a pipe to the steam plant and supplying the steam in this way, while repairs to the boiler were made.

CUT DOWN BY THE REAPER

THREE OVER FOUR SCORE AND TEN YEARS OF AGE.

Gen. Haupt, Great Railroad Man, Dies on a Train—Citizen Dies at Dinner Table—Other Deaths.

General Herman Haupt, for about ten years a resident of Gettysburg and considered one of the greatest of American railroad men, died last Thursday morning in a parlor car on the Pennsylvania Railroad between Jersey City and Newark and it seemed almost appropriate that this great railroad man should die on a railroad train. He was in his 89th year. Death was due to heart disease. He was on his way to his home in Washington, D. C., accompanied by his son, Louis M. Haupt, formerly a professor in the University of Pennsylvania. Gen. Haupt was born in Philadelphia in 1817. He was the oldest living graduate of West Point Military Academy, having been appointed a cadet by President Jackson when but 13 years of age. He was graduated when he was 18, in 1835, and must be among the youngest graduated cadets of that institution. He soon left the service, turning his attention to engineering, becoming engaged on the construction of the Hoosac Tunnel.

About 1837 General Haupt came to Gettysburg and was professor of civil engineering and Architecture in Pennsylvania college from 1837—39 and during this time became principal of Oak Ridge Academy, now the Blocher mansion, located on what has been known to many here as Haupt's Hill. He was assistant Professor of Mathematics in college here 1845—47. During his residence here he married Miss Cecelia Keller, daughter of Rev. Benjamin Keller, pastor of St. James Lutheran church of this place. His four children, John, Jacob and Louis, and one daughter, Miss Cecelia, with whom he lived in Washington, were born in Gettysburg.

General Haupt was chief engineer and general superintendent of the Pennsylvania Railroad during the early period of its construction, having planned and carried out many of the improvements which have contributed to the prosperity and worth of this great system. He won his title of Brig. General during the Civil war. President Lincoln chose him to be chief of the Military Railroad Bureau and Grant himself had to say "by your leave" to General Haupt when it came to a question of moving troops. At the close of the war General Haupt became general manager of the Northern Pacific railroad.

Russell Hollebaugh died at his home on Hanover street last Thursday, aged 47 years. He had been in failing health for about a year, suffering with disease of the kidneys, complicated with dropsy and heart trouble. During the year he had been in a Baltimore hospital and his condition was critical for a long while. During his illness he has been faithfully watched and tenderly nursed by his only child and daughter, Miss Annie Hollebaugh. He recovered to such an extent that he could walk about on the arm of his daughter. On Thursday he came to the dinner table without assistance, a minute or two after he sat down at table there was a gasp and he expired. Mr. Hollebaugh was an expert photographer and for years connected with Hon. Wm. H. Tipton's establishment. Funeral was held on Monday afternoon, services being conducted by Rev. W. W. Hartman, pastor of Methodist church, of which deceased had been for many years a faithful member. Interment in Evergreen Cemetery. He is survived by his father, Barney Hollebaugh, one brother, Wm. A. Hollebaugh, of Annapolis, and one sister, Mrs. C. S. Speece, of this place.

Mrs. Mary Shaeffer, probably the oldest citizen in Perry county, died at New Bloomfield, Dec. 5, aged 92 years, 3 months and 23 days. She was the widow of William Shaffer and is survived by four children, twenty grandchildren and twenty-four great-grandchildren. She was familiarly known as Grandmother Shaffer, loved and respected by a wide circle of friends and relatives. Funeral on Dec. 8. She was an aunt of Mrs. John C. Group, of Idaville, who with her husband, Commissioner elect John C. Group, attended the funeral.

Mrs. Elizabeth Hoover, widow of John Hoover of Reading township, Adams county, died on last Thursday morning from pneumonia, aged 79 years, 11 months and 13 days. Rev. S. P. Mauger, of New Oxford, conducted the services, with interment in Mt. Olive Cemetery at Abbottstown. She leaves one son and four daughters, Jacob Hoover, Mrs. Sarah Mott and Misses Mary, Sevilla and Elizabeth, all of Reading township. One brother, Andrew Radisill and the only surviving member of that branch of the Radisill family lives in York Co.

Mrs. Longenecker, widow of the late Rev. Daniel Longenecker, died on last Wednesday, Dec. 13, at the home of her son-in-law Geo. Weaver, near Hanterstown, in the 90th year of her age. Funeral on Saturday with interment at Friends Grove Meeting House. She is survived by a sister, Mrs. Jerome Melhorn of Hanover.

Leonard L. Esterline died in Baltimore county, Md., Dec. 9, aged 32 years and 3 months. Mrs. Agnes Esterline of McSherry-town is an aunt of the deceased.

Charles A. Coe died at his home in Chambersburg, Dec. 8, from typhoid pneumonia in his 62nd year. He was a native of Gettysburg and after the war located at Chambersburg. For 15 years he was a trusted employee of the Burkhardt flour mill and at his death was substitute miller carrier on R. F. D. No. 1 out of Chambersburg. He leaves a wife and one daughter, Miss Grace Coe. He is survived by one brother, William Coe, of near Attendsville.

John H. Neal, Sr., died at Waynesboro on Dec. 8, aged 89 years. He was known to a number of people in this place, having visited his daughter, Mrs. Reuben H. Rindger, when latter lived here.

Charles Kitzmiller, youngest son of Mr. and Mrs. David Kitzmiller, of this place, died in Jersey City Dec. 7, of Bright's disease aged 22 years and 11 months. He had been a trolley motorman in Jersey City for 14 months.

He leaves a wife and child eight months old and besides his parents is survived by two sisters, Mrs. Emory Dougherty, of this place, and Mrs. Charles Ridinger of Baltimore, and two brothers, John and Wm. Kitzmiller, of Philadelphia.

Robert M. B. Hill, died on Sunday Dec. 10, at his home near Greenmount, Cumberland township, aged 85 years. He has been a well-known citizen of his township and a faithful member of the Presbyterian church of this place. Funeral took place on Wednesday of last week, Rev. D. W. A Fairfield Pastor Surprised.

On Thursday evening Dec. 14th, Rev. & Mrs. C. L. Ritter were taken completely by surprise. They had received word from a young lady of the congregation that she and a friend would call that evening. When the door bell rang it was responded to by Mrs. R. to meet her friend, when lo! a crowd had filed into line greeting her as they passed by going on to the dining room and then relieving themselves of their burdens. The domestic hearing the commotion immediately left his study, came down only to find his home in the possession of the members of the Y. P. S. C. E. who had come to surprise the pastor and wife and were entirely successful in this too. The donation was a large & substantial one, even "Joe" (the horse) was not forgotten. The evening was spent in playing games, singing songs and a jolly good social time in general. Every one seemed to have enjoyed the evening which was none the less appreciated and enjoyed by the pastor and wife for it is a pleasure to know we have a place in the hearts of the young people.

SPRING SALE LIST.

The spring sale list is inserted this week later than usual. The spring sale appears to be the favorite time notwithstanding there have been sales, and a larger number of them, advertised in COMPILER, during the fall months, at which good prices have prevailed. STOCKHOLM.
The City of a Thousand Islands and Rocky Reefs.

From Sweden's capital an enthusiastic visitor writes: "The sky has an almost Italian radiance as the sun shines clear and bright on the glittering levels of the lagoon that divide the new town from the old. Across the water, on which a fleet of white ferryboats ply, rises the broad front of the palace, the stern outline of which is relieved by the russet glow which time has lent to the brickwork. In front of the palace runs a broad quay crowded with shipping, and which one may catch peeps of winding streets, with sloping roofs and painted houses bent with age. The square front of the palace rises above the red and gray roofs, seeming to command the old city. On my right the waters narrow to a swift rushing stream, over which a stately bridge has been thrown, uniting the palace with the picturesque pile of the opera house, or, rather, with the broad square in which it stands. Behind the opera house lie broad streets of modern houses, in which there are unexpected glimpses of waterways crowded with shipping.

"Stockholm is built on a series of islands formed by Lake Malaren. It is, indeed, the city of a thousand islands and rocky reefs, which are sown broadcast many miles beyond the mainland, where the lake and river join the sea. The steamers which ply up and down the lake afford endless excursions. Seaward you may sail a day among the islands until you reach the long, low reefs on which the Baltic beats.

"In spite of their cold climate the Swedes delight in the open air. After the indoor life of English or American cities it is a great pleasure to take one's meals out of doors, although it may sometimes be necessary to dine wrapped in an overcoat. We have seen people dining in the Tivoli gardens beneath awnings and umbrellas in the rain. This habit may explain the health and vigor of the Swedes."

A Gift For Wife or Daughter

WOMEN'S TAILORED SUITS

Tailored—expresses their appearance—neat, dressy, stylish. We see to the details of fit and finish in the selection of the factories that shall make our suits. There are bunglers and botchers in tailoring, as well as artists. There is variety in style here sufficient to please your taste, as to what you think your suit should be. The long 3-4 or 7-8 Coat Suit is by long odds the favorite however. Certain styles that cannot be re-ordered are reduced in price.

Rain Coats

Rain and sleet lose half their terrors when a Rain Coat is worn—they are a necessary luxury—luxury because they are beautiful enough to be worn at any time. We have very recently found a factory that puts out all its energy on the making of Rain Coats at less price than we have ever been able to do before. In all the right colors. Price starts at \$7.50, \$10 up to \$20.

Handkerchiefs

If you do not know what else — there are Handkerchiefs — useful, certainly, and for the Ladies often very ornamental. You will find with us Handkerchiefs, of every character and kind and we are confident at less price than most places. A Handkerchief sold as Linen by us IS LINEN. Prices start at

5c up to \$1.

Men's Initial—in both Silk and Linen—Handkerchiefs in fancy boxes—for Children, Ladies and Gentlemen.

SILK HANDKERCHIEFS and MUFFLERS in every grade.

A Gift For Wife or Daughter

WOMEN'S DRESS SKIRTS

Panama is the favorite material, but details of style we'll have to leave, as there are too many to begin on for descriptions of any one or two. Suffice it to say that they are right—rightly tailored, they hang or set just right. Certain half dozen styles cannot be reordered, if you'll find your size among them you will save a couple of dollars.

One lot were \$4.50, \$5 and \$6, now \$3
" " " " \$5 and \$7.50 " " \$15
Regular price range \$4.50 to \$10.

See December Trade Event Advertisement on another page for a suggestion of Gift Giving.
